According to Redbox Zanesville is the 5th romantic city in the United States. That can be viewed in several ways.

Based on opinions of people here at Muskingum University here are five romantic spots in Zanesville. Redbox rated it the 5th romantic city in the U.S. based on the number of romantic movies and romantic comedies that are rented from the city. For starters if there are people that are more outdoor types they can go to Zane's Landing Park "I really like going to it's called Zane's landing it's a part of the riverside trail you can kinda walk around look at the water and the scenery that way," said Senior college student Kayla Hiett.

People on campus could also go out dinner to the Old Market House Inn an Italian restaurant. For a fun time students could also go to the movie theatre in Zanesville at the Colony Square Mall." I would probably go see a movie," said Hiett.

Another outdoor activity that could be a possibility that has multiple activities to do is the Riverside Park an example is a biking trail, there is also a horse shoe toss pit, and tennis court. There can be those people to that just want to order takeout such as pizza or Chinese food and watch a movie or rent one.

Zanesville as whole being a romantic place comes from the view point of the people and Kayla said that Zanesville was romantic " maybe because it's quiet and quiet we don't really have a lot of attractions per say you can really focus on who your with." The city may not be exciting from the outside but to some people that live there it has its own romantic qualities
